

MALAWI UNIVERSITY OF SCIENCE AND TECHNOLOGY

PRESS RELEASE

Graduation Postponement

All students who were scheduled to graduate on Friday, April 23, 2021 are advised that the University's second graduation ceremony has since been put on hold. The development has been made as one of the preventive measures after several students on campus registered Covid-19 positive results.

A new graduation date will be communicated soon once management gets advice from authorities. Meanwhile, let us continue to follow all Covid-19 preventive measures, including vaccination.
